[linkedin.com/in/anshuman-singh696394191](https://www.linkedin.com/in/anshuman-singh696394191)

### PROFESSIONAL SUMMARY

Senior MuleSoft Integration Developer with 4.8+ years of hands-on experience designing and delivering enterprise-grade API integrations on Anypoint Platform. Proven expertise in API-led connectivity, Open Banking compliance (v4.0), event-driven architecture, and CI/CD automation. Currently upskilling with MuleSoft AI Chain (mac4j) and MuleSoft Code Builder to embed AI-powered flows and natural-language query capabilities into integration solutions. Adept at translating complex business requirements into scalable, secure, and compliant integration architectures across Banking, EdTech, Food & Beverage, and Manufacturing domains.

### CORE COMPETENCIES & TECHNICAL SKILLS

#### MuleSoft / Anypoint Platform

Anypoint Studio, API Manager, Runtime Manager, MQ, Object Store, DataWeave 2.0, RAML Design, CloudHub, API-Led Connectivity (SYS / PRO / EXP), MuleSoft Code Builder, MuleSoft AI Chain (mac4j)

#### Security & Governance

OAuth 2.0, Mutual TLS, Client-ID Enforcement, Rate Limiting, JWT Validation, IP Whitelisting, Open Banking v4.0 (AISP / PISP / VRP)

#### Integration & Architecture

REST API, SOAP, ESB, Event-Driven Architecture, Microservices, Batch Processing, SFTP, GCP, Salesforce CRM, Eloqua, SQL / Database Integration

#### DevOps & Tooling

Azure DevOps, CI/CD Pipelines, BitBucket, GitHub, JIRA, Postman, Splunk, NewRelic, Maven, MUnit Testing

### PROFESSIONAL EXPERIENCE

#### Senior MuleSoft Integration Developer

Capgemini — Bank of Ireland (CMA4) | Pune, India

Jun 2025 – Present

- Led upgrade of AISP, PISP, Event Notification, and VRP APIs to Open Banking v4.0 standards, achieving full PSD2/OBIE regulatory compliance.
- Architected and implemented advanced security layer using OAuth 2.0, Mutual TLS (mTLS), Client-ID Enforcement, and API Rate Limiting, reducing unauthorized access incidents.
- Redesigned RAML contracts and OAS specifications to align with updated Open Banking regulatory and structural mandates.
- Refactored complex Mule flows and DataWeave 2.0 transformations to support schema changes across 10+ APIs without business disruption.
- Conducted end-to-end impact analysis, regression testing, and performance validation; achieved zero production defects post-release.
- Integrated MuleSoft Code Builder for streamlined in-browser API development, reducing local environment setup time for the team.

#### Integration Engineer

NTT Data — Adtalem Global Education | Noida, India

Apr 2023 – Jun 2025

- Designed and developed API-led integration flows to synchronize data between SQL databases and Salesforce CRM, enabling real-time bidirectional updates.
- Built automated pipelines to sync student and marketing data from GCP to Eloqua via SFTP with CSV file processing, supporting 50K+ records per batch.
- Implemented real-time event-driven integrations using Anypoint MQ to track project progress, issues, and customer requests across cross-functional teams.
- Established robust error handling, dead-letter queues, and retry logic, improving system resilience and reducing integration failure rates by ~35%.

- Wrote comprehensive Munit test suites achieving 90%+ flow coverage; integrated tests into Azure DevOps CI/CD pipelines.
- Participated in Agile ceremonies, sprint planning, and code reviews; mentored junior developers on DataWeave transformations and API design best practices.

### Integration Engineer

**NTT Data — Steel Line Garage Doors (BX Bunka)** | Noida, India

*Sep 2022 – Mar 2023*

- Delivered end-to-end MuleSoft integration between Flutter mobile application and backend databases, enabling real-time data accessibility for field technicians.
- Documented integration processes and conducted knowledge-transfer sessions for Level 2 support teams, ensuring zero-downtime handover.
- Optimized batch processing flows resulting in 40% improvement in data synchronization throughput.

### Integration Engineer

**Apisero (NTT Data Company) — Jollibee Foods Corporation** |

Noida, India

*Feb 2022 – Aug 2022*

- Developed frontend integrations for GRAB and Foodpanda delivery platforms, connecting client backend store, product catalog, and order management systems.
- Built a common error handling framework using custom raised errors and structured logging, cutting mean-time-to-resolution (MTTR) for production incidents by 30%.
- Coordinated with cross-functional product and engineering teams across multiple time zones to deliver integrations on schedule.

## CERTIFICATIONS

---

- MuleSoft Certified Developer — Level 1
- MuleSoft Certified Developer — Level 2
- MuleSoft Certified Integration Associate
- Salesforce AI Associate
- Salesforce AI Specialist

## EDUCATION

---

**B.Tech in Engineering** — RKGIT, Ghaziabad

*Graduated Jun 2022*

**Intermediate** — B.M.P.School , Raebareli

*Jun 2017*

**High School** — B.M.P.School , Raebareli

*Jun 2015*
